

Sevantilal Kantilal (SK) Trust

EDUCATION & HEALTHCARE INITIATIVES

Location: Various in Maharashtra & Gujarat

Updated: October 2022

About SK Trust

Long before CSR became a legal requirement, its ethos was ingrained in the very soul of the SK Group. Created in 1961, the SK Trust is committed to actions that support educational and medical initiatives in our local communities. We have built institutions from kindergarten to degree colleges, with the vision of contributing towards a more educated India in the years to follow. Likewise, we have recognised the need for easier access to healthcare, particularly in lower-income communities, which has encouraged us to continue building and contributing to medical facilities that serve various purposes.

Educational Initiatives

Education is at the forefront of our progress as a country and as a community and we truly believe in the power of education. Our goal is simple - to provide a basic education to those who wish for it and for those who are unable to access it. Our programmes offer people of all ages the opportunity to get an education at a low or no cost.

Education-related initiatives:

- SK Balmandir (Kindergarten School)
- SK School of Business Management
- SK College of Business Management
- SK College of Arts and Sciences
- SK Convention Center for Performing Arts

Healthcare Initiatives

We also recognise the lack of access to proper medical facilities in rural areas of our country. Our efforts in the medical space aim towards providing more affordable and accessible treatments to patients, especially those in remote locations.

Medical-related initiatives:

- SK Blood Bank
- SK Trust Diabetic Retinopathy Care Center (at RNC Free Eye Hospital)
- Sumangal Medical Center (free health checkups for local tribal communities)
- The Free Beds Initiative
